Transcomputation - Exercise 9

Dr James A.D.W. Anderson FBCS CITP CSci

1 November 2017

1 Total Computation

Now, at the end of the course, you have an understanding of transmathematics, how it is used to model physical systems, and how it can be used in the design of hardware and software to deliver transcomputation. Discuss any aspect of transmathematics or transcomputation.

2 Note

This Exercise is completely open ended so there is no Answers sheet.
